

THINK LIGHT

**International Conference on Lightweight
Panels powered by Ligna Hannover**

**7 May 2013
Hanover, Germany**

Conference Proceedings

Edited by

Kurt Fischer

Technical Conference Management

Technical Conference Management,
Dr. Kurt Fischer KG

Fasangasse 1B
A-2103 Langenzersdorf, Austria

Table of Contents

Using lightweight boards in Germany – a sustainable development?

Silke Feifel¹, Witold-Roger Poganietz¹ and Liselotte Schebek²

¹ *Karlsruhe Institute of Technology (KIT)*

² *Technische Universität Darmstadt*

5

FEM driven development of a light weight panel based on a new type of core layer with adjustable mechanical properties

Jean-Pierre Mouton and Dirk Hohlfeld, *IHD – Institut für Holztechnologie Dresden*

13

Three dimensional formable paper honeycomb core for lightweight sandwich parts

M. Herzberg, M. Britzke, J. Herold, C. Korn, S. Lippitsch and A. Wagenführ

Technische Universität Dresden

23

Innovative Production Methods for Light Board

Hans Melies, *Wemhöner Surface Technologies*

29

BOS / Board On Stiles - Design and Easy Production

Stefan Busche, *Robert Bürkle GmbH*

31

Lightweight throughfeed technology

Franz-Georg Jüttner, *HOMAG Group*

39

The Cell Size definition for honeycomb core

Wieger Wiegersma, *Axxor BV*

47

Solution for high quality light weight construction, new generation of Flame retardant and water resistant specialty paper

Ulrich Mallon, *Koehler Greiz*

55

Nordson Adhesive Application Technology – Save Overall Production Cost and Enhance Sustainability By Integrating Future Technology

Jörg Klein and Jesus Higuera, *Nordson Engineering GmbH*

63

Learning from Nature - WoodWelding® Anchoring in Lightweight Materials

Gerhard Plasonig, *WoodWelding*

69
